Subject: RE: Plastic recycling

Let's use non-mechanical for now.

Subject: RE: Plastic recycling

Do you want to use the term "chemical recycling" or "non-mechanical recycling". More uses the term non-mechanical

Okay, we should then caveat our recycling numbers to say it includes chemical recycling.

You could ask More if they can do the breakout in future requests. They've already provided the 2018 data.

Okay, great. Thanks for letting us know—is there a way we can break this out in the recycling estimate?

Subject: Plastic recycling

Swarupa, Hope,
More Recycling told me they survey both mechanical and chemical recyclers. Therefore the recycling data they provide would include both types of recycling. Since it is a voluntary survey, they depend on the responses received and do not estimate non-respondents.
